Augmentative and Alternative Communication (AAC)

AAC is a term that's used to describe various methods of communication that can help people who are unable to use verbal speech to communicate.

AAC Scotland provides practical and useful AAC resources commissioned by NHS Education for Scotland and created by CALL Scotland. In addition, you will also find further AAC resources that have been created and collected as part of our day-to-day work.

Free AAC in Education online learning modules now available

- Introduction to AAC
- AAC in Education
- AAC Assessment
